Level Set

Gradient Descent

```
initialize();
while(!is_terminate)
{
    update();
}
```

K Means

```
initialize(); // initialize k random centers
while(!is_terminate())
{
    update_feature();
    update_center();
}
```

CV

```
initialize(); // initialize a height function (some different initialization
methods)
while(!is_terminate())
{
    update_level_set();
    update_center();
}
```

LBF

```
initialize();
while(!is_terminate)
{
    do CV model in each pixel
}
```
